

MECHANICAL ENGINEERING

Varo provides mechanical engineering expertise to industrial, utility, and commercial clients in the following areas:

MECHANICAL ENGINEERING SERVICES

- General Mechanical Engineering
 - HVAC Systems
 - Energy Studies
 - Compressed Air
 - Machine Design
 - Pumps & Process Piping
 - Heat Transfer for Process
 - Fume & Dust Control
 - Potable & Process Water
 - Sanitary & Process Waste Water
- Process System Design including
 - Chemical Preparation
 - HVAC & Industrial Ventilation
 - Ovens & Curing
 - Packaging Systems
 - Bulk Material Handling
- Auxiliary System Design including
 - Compressed Air & Hydraulic Systems
 - Cooling Water Systems
 - Natural Gas, Refrigeration & Nitrogen Systems
- Environmental Systems
 - Scrubbers & Fume Collection
 - Incinerators
 - Dust Collection & Suppression
 - Vacuum Systems
